American Society of
Pediatric Nephrology

12th ASPN Multidisciplinary Symposium

We are pleased to announce the 12th Annual Meeting, November 7-8, 2024. This will be a fully virtual meeting again this year. Attendees are primarily, nurses, social workers and dietitians. We had attendance of close to 150 with our virtual version of this meeting last year as these are groups that don't typically have travel budgets.

Meeting sponsorships are available for this popular event. We have finalized the program for our November Multidisciplinary Symposium.

Information is available here on the program and sponsorship opportunities. I would be happy to discuss custom sponsorship packages to help you meet your goals.

Please contact [Connie Mackay](#) if you have any questions.
